 Razorpay

Optimizer

Get greater control over your payments

Inconsistent Success Rates

Businesses chasing growth need better success rates on payments

High Operational Overhead

Managing multiple PG integrations requires continuous monitoring and engineering effort

Compliance and Security

Managing compliance across multiple PGs gets messy due to varying rules and audits

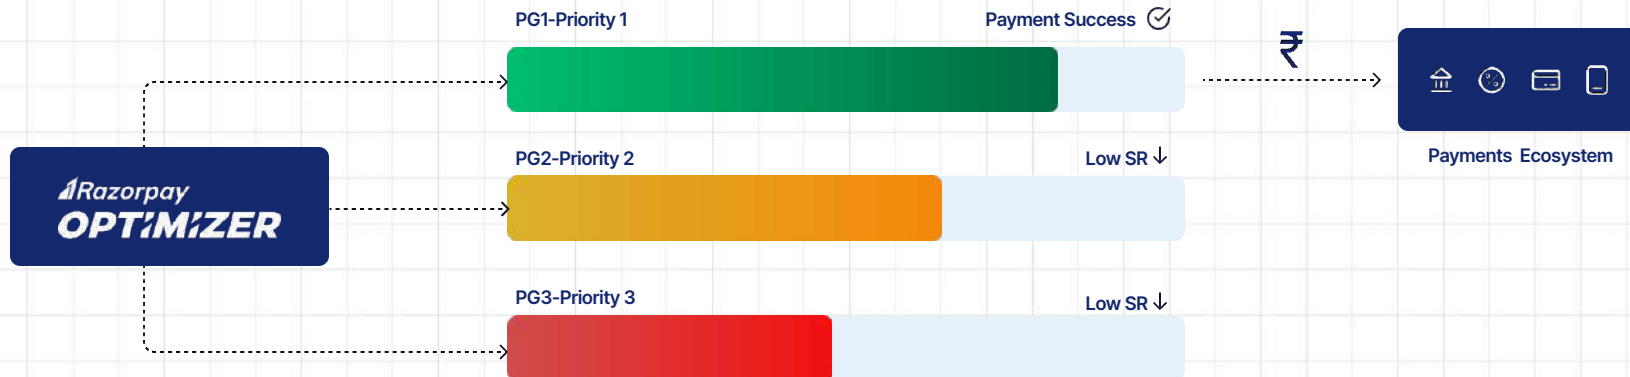

Payments Routing

- Our **Smart Router** analyzes 6mn+ monthly transactions to boost SR by ~10% by selecting the best-performing PG.
- **Priority/Rule-Based Routing** allows you to send payments traffic to the PG of your choice.

Success Stories

FURLENCO

Furlenco leveraged our Smart Router to achieve a 5% increase in SR.

Payments Integrations

- Choose from over **100+ payment integrations** on Optimizer.
- Configure new Payment Providers on Optimizer, and complete integration within **2 weeks**.
- Bring down **compliance and maintenance costs** by 0.5-0.7Cr.

Success Stories

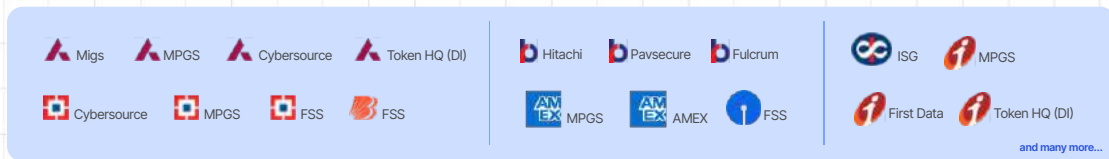

Rural Mudra saved 235 days in a straightforward PG integration

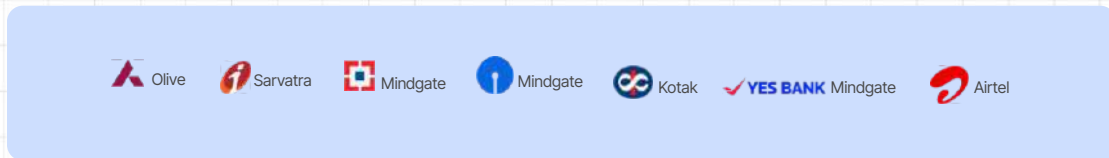

Integrations

				and many more...

Cards PGS

UPI

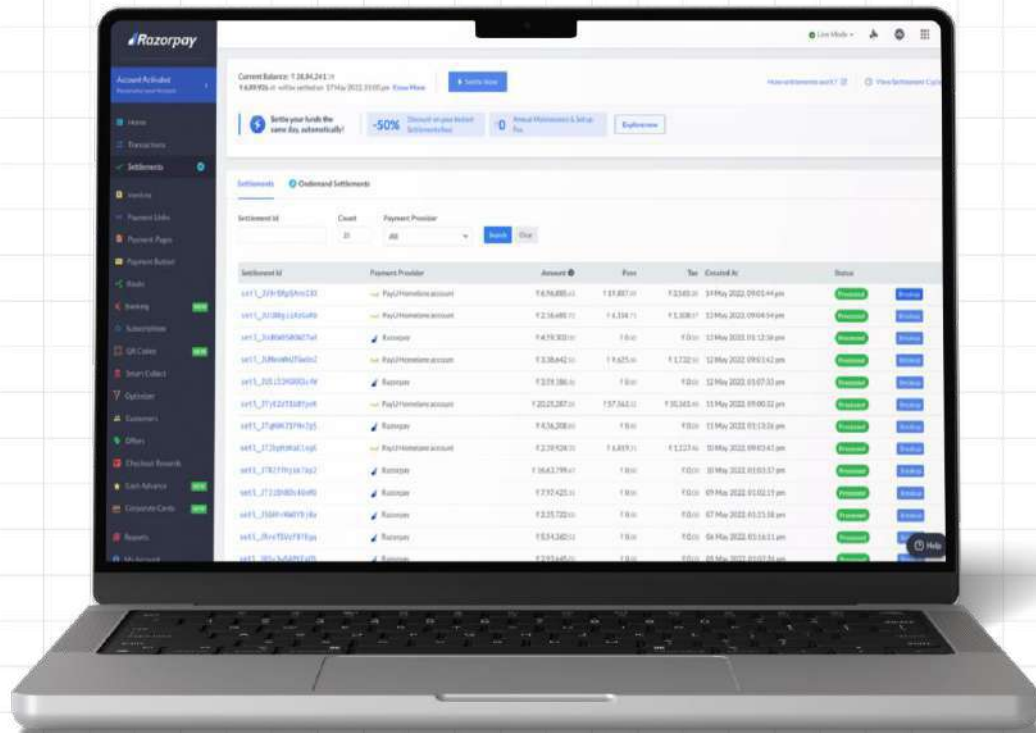

Payments Reconciliation

- Get a **360° view** of payments, refunds and settlements.
- **Initiate refunds** across PGs from a single source, and track success rates in real-time, across all PGs and methods.
- Get a **single-click download** of all transaction reports.

Success Stories

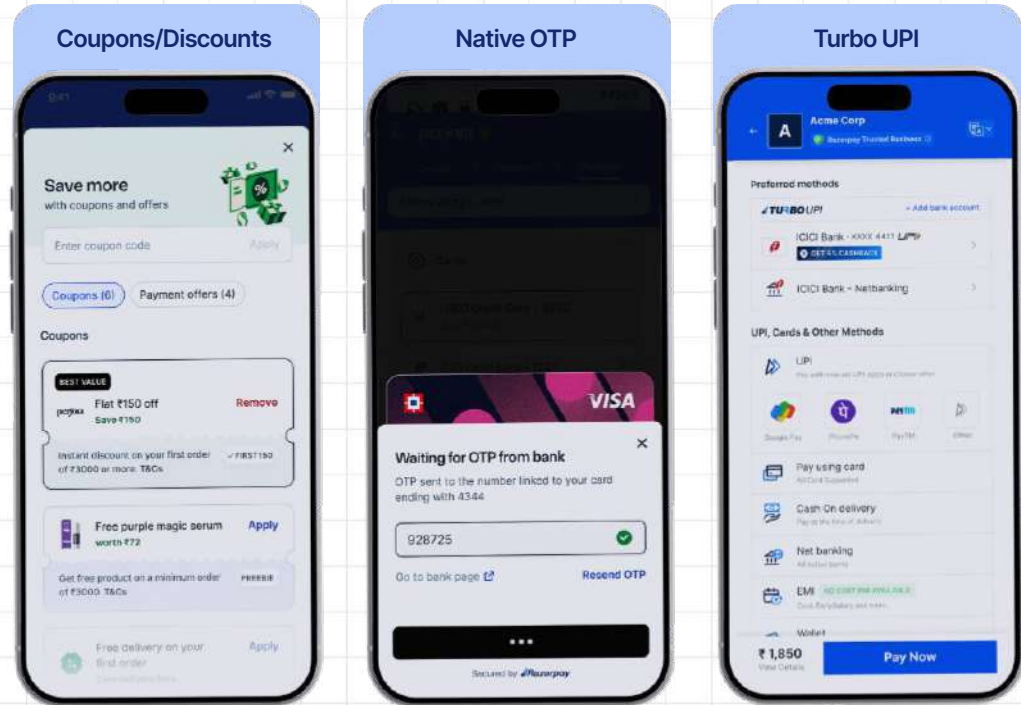

Fabindia saved over 16 hours per week on payment settlements across multiple PGs.

fabindia
CELEBRATE INDIA

Razorpay Innovations

- Get access to CVV-less payments, Native OTP and Turbo UPI for **higher success rates**.
- Run targeted discounts/coupons, BNPL, and EMI plans across banks to **increase conversions**.
- Use our **Integrations Audit Tool** to audit payment gateway integrations at the click of a button.

Higher Payment Success Rates

Industry-best AI driven routing assesses 600mn data points to ensure maximum payment SR.

Lower Transaction Cost

Priority routing allows you cut payment costs by sending traffic to cost-effective PGs.
